

Clark Forklift Parts

Clark Forklift Parts - At this time, there are at least 350,000 Clark forklifts performing globally, and more than 250,000 in use in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 particular items intended for 20 distinctive designs of lift trucks and automated equipment. Your regional Clark Dealer is your total source for availability of all your components needs offered by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very amazing global support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is now a standard feature on every forklift.

Clark has a unrelenting mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a dominant market position.

Clark has selected the extremely economical and advantageous structure of "Lean Production" for its assembly facilities and use of resources. This system was developed to acknowledge the most successful method of manufacturing plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to develop the proficiency and brilliance of their merchandise while minimizing costs. The new value engineering program combines innovative product growth and delivers superior customer support and service within the industry.
