

Meritor Parts

Meritor Parts - Meritor is a premier global supplier which is proudly built on a one hundred year tradition of service and quality. They concentrate on various integrated systems, modules and parts to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor values the needs of all their customers to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their international operations. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable experts.

By just hiring future focused workers, Meritor strongly feels these top-caliber individuals will be able to quickly adapt to changing environments and exhibit the commitment and performance required in order to reach results in the competitive materials handling market. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides their staff different chances for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, suspension and braking systems used for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is likewise responsible for supporting the requirements of all their global engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group that is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 nations.

The supplier development network is particularly located in order to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every part of the trade. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within every region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business methods and implement lean methods.
