

Concrete Hopper

Concrete Hopper - This accessory is a self-dumping hopper that automatically activates to dump as soon as bumper release touches the side of a dumpster. When unloading is done, the hopper returns to an upright and locked position. This particular piece of machinery even comes with a cable that allows operation from the seat of the lift truck so as to have the alternative of manually unloading the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
