

TCM Forklift Part

TCM Forklift Part - In the global business of material handling, forklifts play an important part for transporting industrial goods. First innovated as industrial vehicles in the 1930s in America, forklifts gained popularity after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread worldwide.

In nineteen forty nine, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the business is simply called TCM Corporation. Over the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the trade. TCM began constructing lift truck manufacturing sites outside of Japan in the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures many models of industrial forklifts with over 50 years of accumulated expertise and technology, making their products used and recognized all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading company.
